

Write 0 in *cell a*.

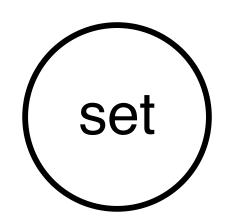

Write 0 in *cell b*.

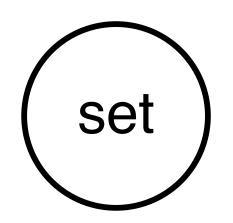

Write 9 in *cell c*.

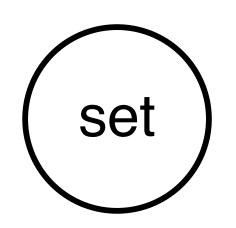

Write 1 in *cell d*.

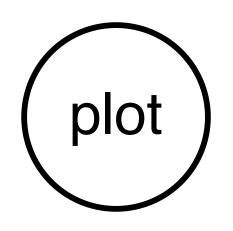

Write 1 in *cell e*.

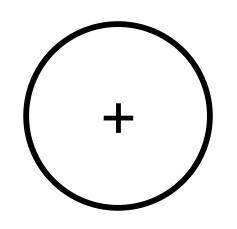

Write 7 in *cell f*.

Write 17 in *cell g*.

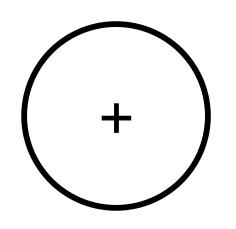

Flip the sponge at column *cell a*, row *cell b* to its green side.

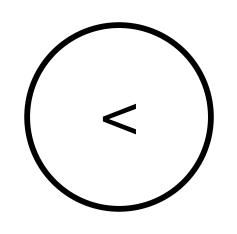

Add <u>cell a</u> and <u>cell d</u>.

Write the result in *cell a*.

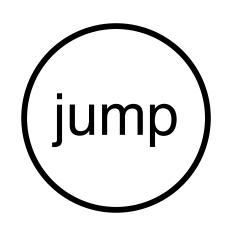

Add <u>cell b</u> and <u>cell e</u>.

Write the result in *cell b*.

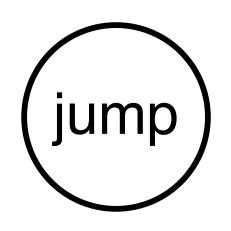

Compare <u>cell b</u> and <u>cell c</u>.

If <u>cell b</u> is less, write 1 in <u>cell h</u>. Otherwise, write 0 in <u>cell h</u>.

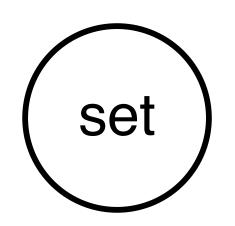

If *cell h* is 1, go to instruction *cell f* next.

Otherwise, ignore this instruction.

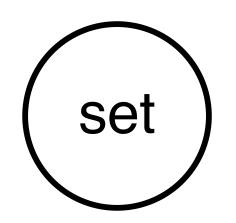

If *cell i* is 1, go to instruction *cell g* next.

Otherwise, ignore this instruction.

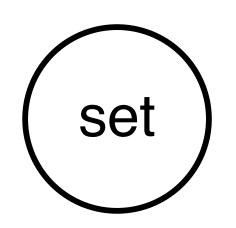

Write 1 in *cell i*.

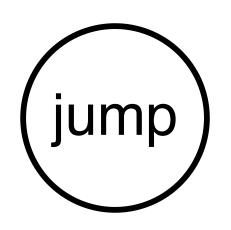

14

Write -1 in <u>cell b</u>.

Write -1 in *cell d*.

If *cell i* is 1, go to instruction *cell f* next.

Otherwise, ignore this instruction.
